WM. McCRAW BRINGS CAMPAIGN TO MILAM

Wm. McCraw of Dallas, candidate for attorney general of Texas, brought his campaign to Milam county Ad[illegible]day in an address at the Inherita[illegible] Poll Tax [illegible]troduced by Hon. Jack Gross Recen[illegible] class mate at law Insurance [illegible] McCraw has a large sup- Occupation[illegible]am county and an active [illegible] organization in his be- campaign in Mi[illegible] half.

McCraw is one of the most extraordinary c[illegible] f Texas personalities. His as a lawyer and prom- record both[illegible]cutor is unique. He was inent proses[illegible] bar at the age of 19 admitted to the[illegible] he only attorney in years. He is Dallas to serve three times as president of the district and County Attorney's Association.

As District Attorney in Dallas county he made a record without equal. He obtained more 99 year convictions and sentences for robbery than any other prosecuting attorney in the United States.

He was born in Arlington and was educated in Dallas. He was a newsboy then a printer. He mastered law while working as a printer in his father's plant. He served as a machine gun lieutenant in the 36th division in the world war.

His hair is red. His eyes are blue like the Texas sky and for spontaneous wit he has few equals. Strong of character he is fearless and relentless when need be. He is a dynamo of energy. It is said there were no back doors to his office as district attorney in Dallas county, and there will be none at Austin.

Democrats in Milam county who have always respected the nominee of their party know that McCraw is a Democrat.

In his address he pledged service to the people and protection for the state.

SANE FOURTH WITH THOUSANDS IN CITY

Skeezix was host to thousands of July Fourth celebrants Wednesday.

Sane observance of the day mixed with political activities and a few speeches featured the proceedings. The program was well attended and many came from far away places to enjoy the day.

Judge Scott spoke for Edgar Witt for Governor, the only political address of the day. Representatives for Attorney General Allred did not appear.

Jim Baskin delivered a patriotic address of welcome for the occasion.

At night the celebration closed with a big dance. Free barbecue was served in the afternoon.

Elwood Cammer and Ed. Balhorn owners of this popular entertainment center, expressed their appreciation for the many who came and the program for the day.

GAY HILL PIONEER OBSERVES BIRTHDAY

Fritz Stolte, pioneer resident in Gay Hill Community, entertained on July 3rd for a number of friends in observance of his 77th birthday.

Friends from all sections of Milam county were present for the celebration which was featured by a barbecue and dinner, closing with a dance at night.

Attending from Cameron was Hon. Sam Hefley, former member of the legislature and a close friend of Mr. Stolte.

It was estimated that there were about 150 people who attended the celebration. Of especial interest was the attendance of his family of five sons and daughters and their children. Hospitality such as only the true pioneers know, made all welcome. Mr. Stolte received congratulations of his many friends and neighbors.

As a pioneer resident of Milam county, Mr. Stolte, has lived through much of the stirring history of Texas. Both a Southern gentleman and a Democrat, he has endeared himself to hundreds and the Herald along with other friends join in congratulating him on his 77th birthday and wish for him many more such enjoyable occasions.

Water "Shipped" Down the River on Order!

Water from Lake Brownwood. Brownwood, Texas, is shown above starting a 480-mile trip to the drouth-stricken rice fields of Matagorda and Wharton counties in a unique experiment. The Gulf Coast Water Co., Bay City, bought 4,573,800,000 gallons of water from the Brown County Water Improvement District No. 1 for $10,000. Flood gates of the dam were opened to allow 14 000 acre-feet of water to flow into Pecan Bayou, then into the Colorado River and thence to the stricken area, where huge pumps will pick it up. It is estimated that 50% of the water will reach its destination after a 12-day journey. The price was cheap at that—4,574 gallons of water for one cent! (Texas News Photos)

WALLACE BEERY COMING IN UNFORGETTABLE ROLE

"Viva Villa!" Gives Popular Star of "Min and Bill" and Other Hits Greatest Acting Opportunity of His Career

"Viva Villa!" which opens July 17 at the Cameron Theatre with Wallace Beery starred, takes its place among the truly great pictures of all time.

A fictional version of the life and loves of Pancho Villa, the great Mexican war lord who was the world's outstanding figure in the decade preceding the World War, it combines spectacle and human elements in a manner reminiscent of that great classic of all time, "The Birth of a Nation." It is in much the same vein.

Love By Force

It presents Pancho Villa in love, his feminine foils being Fay Wray and Katherine De Mille. Highlights of this romanic aspect of the picture include Beery's attempt to win the love of Miss Wray by force—a scene in which she shoots him and in which he beats her with a cattle whip. It is one of the most powerful scenes ever filmed.

Beery's fiery conquest of Katherine De Mille is another romantic highlight of the photoplay, as is their mock marriage at midnight in a lonely hut, and the scenes that follow.

Great Battle Scenes

Spectacular highlights of the story include the conquests of Chihauhua, Santa Rosalia, Torreon and other important cities of Mexico, these battles being among the most spectacular ever shown on the screen.

One hundred thousand Mexican natives were used in the picture, as many as 6,000 appearing on the screen at one time in the battle sequences. The sight of these wild pe- ons, armed with guns and gleaming machetes, charging federal breastworks behind which machine guns keep up a devil's tattoo, is awe inspiring.

Beery's friendship with Henry B. Walthal, who plays the gentle President Madero, and with Stuart Erwin, who plays a devil-may-care American newspaper correspondent, provides material for some of the most dramatic highlights of the photoplay.

His parting with Madero, for whom he has worked and fought when Madero goes on to Mexico City in triumph and leaves Villa behind because he is uncouth and untutored, is a masterpiece of drama. His first meeting with Madero, in which the gentle man induces him to forsake banditry and fight for the revolution—a scene in which Villa says softly "You make great dreams in my heart!" is another that will be long remembered.

Human Side Stressed

"Viva Villa!" is the first fictional biography to reach the screen that concentrates on the human side of the subject, while deftly interpolating such mighty spectacle as has seldom, if ever, been filmed before.

With Beery, besides the Misses Wray and De Mille, and Walthall and Erwin, is a notable cast that includes Leo Carillo, Donald Cook, George E. Stone, Joseph Schildkraut, Phillip Cooper, Frank Puglia, David Durand, Francis X. Bushman, Jr., Adrian Rosley and Henry Armetta. The production was filmed under the direction of Jack Conway.

CROP INSURANCE FOR CO-OPERATING FARMERS

Drougth with its threat of crop failure on millions of acres of the nations farms, in the early months of 1934, focused attention sharply in the crop-income insurance features of the adjustment programs that farmers are carrying out under the authority of the Agricultural Adjustment Act.

Definite income assured cooperating growers; the cotton crop of the south shares the same general hazards of production which faces the basic crops of more northern sections. Drougth, flood an insect infestation are crop destroying factors.

There is no single area in the cotton belt that does not lose through one or more of these hazards in a

AREN'T WE WISE

By L. J. Bowling
Gause, Texas

How marvelous is our wisdom,
How grand and good are we;
We have our strength within us
And, Oh! how far we see.

We have the land and till it well,
Great crops we're sure to grow;
We gather corn into our cribs
And all the hay we mow.

Likewise our sheep and cattle
Just multiply at will,
And with the products of our hands
Our factories we fill.

Now, there's plenty for us all,
And all should have a share;
Everyone should be well filled
And no one have a care.

But does it work out just this way?
O, No! There comes the cost and pay;
Then one to the other is sure to say:
"I'll take the corn; you eat the hay."

W. C. Colvin of Rockdale, constable for Precinct No. 4 was in Cameron Tuesday on business and while here was a caller at The Herald office. Mr. Colvin has been active and has furnished the grand jury with much work in his first term as constable for that precinct. He is a candidate for re-election to that office.

STATE TAXES

The following summary will be found at Page 7 of the Auditor's last report to the governor:

It is now my understanding that the appropriations made by the last Legislature were some 14 million dollars less than the appropriations made by the previous Legislature. It is well, however, for the public to know that the state had never spent as much as ten million dollars in any one year prior to 1910; and that the expenditures for 1933 were $107,922,450.79, the greatest expenditure ever made for state purposes in any one year in the history of Texas.

An average cotton crop of four million bales at ten cents will bring only 200 million dollars.

The state has been spending a like amount or a little less each year for the last six or seven years. This crushing expenditure has busted and bankrupted the people of Texas, the business men, the laborers, and the farmers.

It is well for our people to realize that these crushing burdens have been placed on us by our law makers at Austin, the various governors, members of the Senate, and members of the lower house, our rulers.

The above is the record of the State Senators who are now seeking state offices, some of them the office of governor.

Do not forget, some of the candidates for governor favor the exemption of all property from taxation for state purposes except "intangible assets." It is not to the interest of the Texas people to exempt a billion dollars of Oil and Public Utility property of the various Texas corporations, such as compresses, oil mills, saw mills, ice factories, etc., in consideration that their "intangible assets" shall be taxed. It will be a bad trade for the Texas people.

Cost of Service **TODAY**

These Blocks Show How Home Electric Light Rates Have Been Reduced in Cameron Since 1926

The cost of home electric light service has been consistently reduced by the Texas Power & Light Company. The above blocks show that the average cost of this service has been reduced over 40% since 1926. And you will remember that all during this period the cost has never been increased—it has been consistently reduced.

In addition to lowering the cost of service, the Texas Power & Light Company has constantly raised the STANDARD of SERVICE. When the Company bought the local system, service available through the small local plant was limited and undependable. Today your electric service is second to none anywhere in the United States. Dependable power transmission lines bring service from large generating stations. Power for all — the home, the store, the factory. This kind of service cannot be rendered by a small engine light plant — it can only be had through the kind of facilities which the Texas Power & Light Company has installed.

Low rates, voluntarily made—lower cost than the average of all municipal light plants in Texas—service second to none—adequate facilities for small as well as large customers. This is the record of your light company.

At the time this is written Reporterman is not informed as to whether J. B. White, chairman of the Milam county Democratic executive committee, will be a candidate for re-election, nor is he informed as to the probability of there being any other candidate. This newspaper sincerely hopes that Mr. White may be retained as chairman of the party's activities in this county. His service for the past several years has been of an outstanding character, and practicularly pleasing to his newspaper confreres who appreciate the brand of service White gives. He has worked hard all during the lean years, and now that the party is in power he should be recognized as the logical man to retain the office. Reporterman hopes that he will not have an opponent, and herenow pledges his vote and support for J. B. White, the best county chairman this scribe has ever known.—Rockdale Reporter.

The Champion endorses the above comment by Editor Cooke and likewise will support Mr. White. He has rendered the party invaluable service during the past several years and now that the party is in power he is entitled to recognition for his untiring efforts in behalf of the Democrats of Milam county. The voters of Thorndale will give Mr. White a large complimentary vote in July to prove their appreciation of his splendid service on behalf of the party.—Thorndale Champion.

Milam Press Is Scored

Because the Milam County Press did not hail with glaring headlines his formal announcement for Congress, a candidate for this position took the Milam County Press to task in a heated speech delivered at the picnic held at the Fulcher Bluff on Tuesday of this week. Facts in the case are no doubt the same as the position taken by this publication in the matter. Such announcements are advertisements and come under the head of political advertising and as such was worth $20. Not having a check attached to the announcement this publication filed the same to be used when the regular announcement fee was paid, and for this same reason we are sure that other Milam county papers did likewise as the Champion. We have no further comment to make regarding the matter as our advertising is our stock in trade and we are liberal with donations to all worthy causes. —Thorndale Champion.

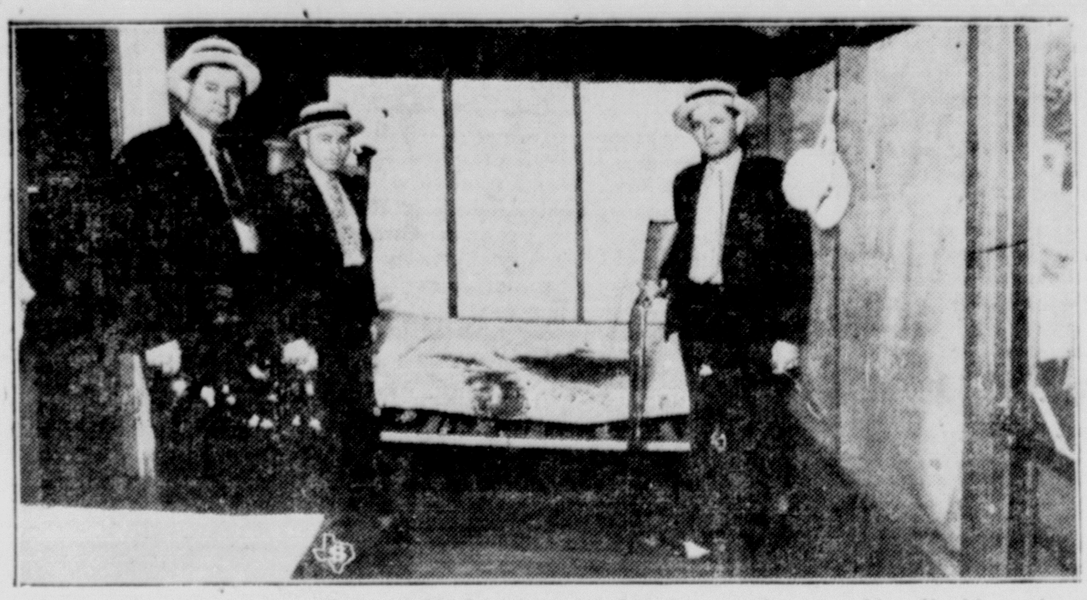
Dallas Man Runs Amuck; Kills Three and Himself



Hugh Davis, 50, of Dallas, Texas, suddenly ran amuck Monday morning, shot his wife, his mother-in-law, his 17-year-old son to death, then killed himself. He was estranged from his wife. The only witness to the shootings, a woman neighbor, could not be found. Pictured above are Dallas officers standing around a bloodstained bed where one of the women lay. All the killings were committed with a shotgun. (Texas News Photos.)

Miss Avanell Mitcham Becomes Bride Friday Of Mr. Frank Brown, Jr., Cameron Young Man

A wedding that took many friends by surprise was that of Frank Brown Jr., and Miss Avanell Mitcham Friday evening June 29th at 8 o'clock at the Baptist parsonage, Rev. N. D. Timmerman, pastor of the First Baptist church reading the impressive ring ceremony, in the presence of Miss Helen Looney and Boyd Chamberlain of Ben Arnold.

The bride is the daughter of Mr. and Mrs. J. M. Mitcham of Buckholts where she was reared. She graduated from Yoe High school in the 1934 class, and is well known in Cameron. She was beautifully dressed in white flat crepe with matching accessories and carried an arm bouquet of pink rosebuds.

The bridegroom is the son of Mr. and Mrs. J. F. Brown, was reared in Cameron, was a member of the Yoe High graduating class of 1933. He is a splendid young business man, and is associated with his father as assistant contractor, and many friends here wish for him and his bonnie bride a life of happiness and prosperity. After a short wedding trip they returned to Cameron where they will make their home.

Campaigner at Eight

The youngest campaigner in the state. At leight, precocious student of government and a silver tongued orator, little Jane Lou Short of Navasota has been telling the voters who's who in the state races. Neither microphone nor crowds bother her. Here she is "pouring it on" while John Pundt of Dallas, candidate for Railroad Commissioner, holds the "mike" so her voice will be picked up.

given period. Certain areas suffer to some extent practically every year. Cotton farmers may not be faced this year with serious drougth, which has visited the north-central sectons of the country, but the individual cotton producer runs the same general risk with his crop and has the same need for income insurance when his crop fails.

This insurance is offered to the grower who has signed 1934-35 cotton adjustment contract. Under this contract he rents 35 to 45 per cent of his average annual cotton acreage during the base period to the Secretary of Agriculture at the rate of 3 1-2c per pound for the cotton that would be produced on this acreage in an average year. In addition he receives a "parity" payment of one cent a pound on the domestic allotment of cotton for his farm. The domestic allotment is 40 per cent of his average production during the five year base period.

These rental and parity payments are based on past production, and like the benefit payments in the wheat and corn-hog programs, are not reduced by any failure in the current crop.

Average production in the cotton belt as a whole during the five year base period is estimated at about 174 pounds per acre. The rental and parity payments for the retired acres would be approximately $7.83 an acre, on an average for the cotton belt. This substantial acreage return is guaranteed to the average cooperating cotton farmer for 1934 on from 35 to 45 per cent of his total base period cotton acreage. This is in addition to returns from sales of the cotton he produces and regardless of any partial or complete failure which might strike the crop.

Total adjustment payments for 1934 under the cotton contracts are estimated at approximately $120,000,000. This sum represents a definite form of crop income insurance for the farmers who are co-operating with the Agricultural Adjustment Administration in the Acreage reduction program.

NEGRO AGENTS WORK ON FOOD SAVINGS

The Vocational Agriculture Instructor, M. C. Sanders of the Cameron Colored High School, and the negro county agent W. H. Phillips of Milam County are working together on a great food conservation program.

They are teaching the farmers in the various communities how to prepare themselves for a rainy day by canning their home grown products such as corn, peas, tomatoes, etc.

On last Monday and Tuesday the Agriculture Instructors assisted the Lee Brothers of Port Sullivan in putting up five hundred cans of corn and peas.

On last Thursday seventy eight cans of corn were put up for a few of the farmers at Clarkson.

The instructors desire to see the farmers throughout the county follow a good live-at-home program which will mean much to them.

BOY SCOUT NEWS

Troop 52 Boy Scouts of America again held it's annual summer camp with a regular attendance of 29, which included 3 adults. Several boys were part-time visitors. Father Roemer and some of the boys of Troop 26 of Waco were visitors for a day. The camp opened Sunday, June 24 and closed Sunday July 1, with a big dinner at which time their pastor, Father Schroeder, the Grand Knight of the Knights of Columbus, John Andres and the Troop Committemen participated as honor guests. The camp was sponsored by Cameron Council No. 2338 Knights of Columbus and was conducted according to the prescribed regulations of the Boy Scouts of America. A parents' night was included in the week's program at which a large number of parents and visitors were entertained by the Troop. Due to the absence of the Scoutmaster during the day, the activities were conducted by Eagle Scout C. W. Gjedde who took charge like a veteran camp director. He was assisted by Frank Ermis and Paul Michalka. Ernest Michalka had charge of the provisions, etc. The chief cook was Pete Kunz. He was assisted by Albert Moraw, Rudolph Michalka and George Matocha. The adult members of the staff included the Committeemen, the Scoutmaster J. A. Lindle and Rev. H. A. Drouilhet. In Father Drouilhet the boys of the Troop found a new buddy. He has been appointed Chaplain of the Diocese by Bishop Byrnes to spread Scouting among the Catholic Parishes. Father Drouilhet has been an active Scouter for many years and makes the summer camps near his home and elsewhere every year. Last year he accompanied eighty scouts to the World's Fair. He has receiv- the "arrow," a national award given to scouts and scouters for outstanding scout work. He is a member of the faculty at St. Mary's University at La Porte, and is professor of Moral Theology and Church History. He is among the few privileged to be ordained in Rome. He said Mass for the boys every morning at 6:30 and the boys responded with 100 per cent attendance. The Troop is greatly indebted to the Citizens National Bank and Mr. Roy Terry for permission for the campsite. We also wish to thank Mr. Welsh of the Admiration Coffee Co., Green & Boedeker and everyone who has helped to make the camp a success for their assistance.

Mrs. Tom Lamkin of Houston, who has been visiting her sister, Mrs. John Olson and family, has concluded a pleasant visit here.

$83,000,000.00
working for a Greater Texas

LIFE INSURANCE FUNDS are reservoirs of thrift which feed the streams of progress. The funds of Texas legal reserve life insurance companies play an important part in the progress of Texas, through financing community development projects and home ownership.

At the close of 1933 these companies had $83,000,000.00 working for a greater Texas . . . invested in loans on farms and city property, in state, county and municipal bonds, in home office buildings and real estate.

This $83,000,000.00 is money in motion, constantly increasing, and parts of it constantly being paid back and reinvested. Every Texan shares the benefits of these investments. Not only are needed improvements made possible, but the money is put into circulation . . . spent for raw materials and labor.

In 1933 these companies put into circulation an additional $30,000,000.00 . . . in payrolls, taxes, purchases and payments to policyholders and beneficiaries.

When you show a preference for insurance in a Texas legal reserve life company you join hands with these companies and their 1,200,000 other policyholders in making Texas *a better state in which to live and make a living.*

Many Friends Greet Mr. and Mrs. Oxsheer Smith On Occasion of Their 20th Wedding Anniversary

One of the most enjoyable affairs of the social calendar for some time was the garden party given Wednesday evening by Mr. and Mrs. Oxsheer Smith at their home 1004 North Jackson Street, celebrating their twentieth wedding anniversary, which took place at Gardiner, Maine, when Mr. Smith claimed as his bride Miss Marian Swift in a brilliant wedding.

After a wedding journey they came to Cameron where they built a beautiful colonial home that has been the center of social festivities to their many friends.

Mr. Smith is a native of Milam county and has made his home in Cameron since early boyhood, having been connected with the Citizens National Bank which his father organized many years ago, and on his retiring from active service his son, Oxsheer, became president.

The spacious front lawn of the Smith home was attractively lighted with colored electric lights that shed a mellow glow over the scene, giving rivalry to the full harvest moon that shed beauty over the large crowd of old time friends, as well as more recent friends, who gathered on the lawn from eight to ten o'clock to enjoy their delightful hospitality.

Mr. and Mrs. Smith welcomed their guests at the entrance of the lawn in a most cordial manner, Mrs. Smith wearing her wedding gown of white shimmering bridal satin with court train that fell from the shoulders, and bridal wreath that she wore twenty years ago, and carried a colonial bouquet of white daisies, bowed with same tulle used on her wedding night.

Members of the wedding party conducted guests to a cozy corner attractively decorated with flowers and growing shrubbery, where Hilliard Thomas and sister, Viola Thomas, who was attired as a colonial lady, served punch from a punch bowl of ice where miniature pink zenias were frozen in the ice bowl. Other members of the house party carrying handsome trays, passed among the guests and served newlyweds with mints.

The lawn was attractively decorated with cut flowers in baskets and tall vases resting at attractive points. A colored orchestra stationed just inside the sun parlor, gave popular music and sang "Maggie," "Harvest Moon" and other popular old time melodies.

Guests reluctantly bid their host and hostess adieu with many good wishes.

Texas Lady Tells How Black-Draught Laxative Helps All Her Family

Here's how Black-Draught fills the needs of a family laxative in the home of Mrs. J. S. Stoker, Fort Worth, Texas: "The grown-ups in my family," she writes, "have always taken powdered Thedford's Black-Draught for biliousness, headaches and other ailments (due to constipation) and found it a reliable remedy. I was very pleased when I saw Syrup of Black-Draught advertised. I bought it and gave it to my little daughters, ages 6 and 4. They needed something to cleanse their systems and Syrup of Black-Draught acted well." . . . Your druggist sells this reliable laxative in both forms. "Children like the Syrup."

Mrs. Floyd Horton of Bethlehem Tells How to Beautify the Home

In making "The House by the Side of the Road" an attractive place to live, Mrs. Floyd Horton, yard demonstrator for the Bethlehem Club, gives the following story of her improvement:

"We moved our garage away from our house so as to make the house appear further from the road by enlarging the side yard; moved five fences and built one. Two of these fences cut the front of the house from the back, and on forgetting to close the gate stray stock would eat our truck, for back yard was in the field. We tore down an old plank fence that joined the front of the garage to the back of the house.

"The yard was plowed, leveled and planted in grass. Made 5 feet shrub beds and planted out 191 shrubs of which 184 are now living. We removed the brick and rock around the beds. First time I ever heard of a flower bed not having something around to keep the flowers in them!

"A negro man helped me three days and I paid him in canned goods, except for sixty cents which I paid him in cash. I trade home canned goods to our local nurseryman for all of the nursery plants that I have. I found a bundle of quarter round moulding in my pantry, which had been left over from our house. This I took to the lumber yard and traded for enough cement to make a stone walk.

"Our Commissioner helped me improve my yard by giving me permission to tear an unattractive bridge away from in front of my house and level the ditch.

"Not only have I worked my yard, but Mother Horton's as well. We moved a rockery from her front yard to side yard, sodded the front yard, plowed leveled and planted grass in her back yard. Made one hanging basket, porch swing in back yard tree, out-of-door table, chair and pot plants in her back yard while she was visiting her son in Houston. Also moved all chicken coops, boxes, rubbish of all kinds away from the place. Restacked stove wood and grubbed up old stump which stood at her back door."

I continued taking Cardui until I had taken nine bottles. I do not have the severe pains." . . . Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.
